How to use the Pianarosa Library Catalogue

The Pianarosa Library Catalogue is an alphabetical catalogue sorted by the names of authors or editors. To search for book titles in the catalogue use the native search function of the Adobe Reader (press Ctrl + F) and type in a keyword of the title or the name of the author. Most titles in the catalogue contain letters with diacritical marks. If you experience problems finding a title including diacritical marks, it might be helpful to activate the option "Ignore Diacritics and Accents" in the preferences of your Adobe Reader. With this option you will be able to find the search terms with any variation of the alphabetical characters. (For example, typing "café" finds both "café" and "cafe".) To activate this option start the Adobe Reader on your computer and go to the search preferences via Edit > Preferences (Windows) or via Acrobat Preferences (Macintosh). Select "Search" on the left side. Then set the checkmark "Ignore Diacritics and Accents".
