

Einladung zum Mongolistik- Workshop

Donnerstag, 11. April 2019

12-14 Uhr

Bayarsaikhan ENKHSUVD

Visiting lecturer, INALCO, Paris

Writing Mongolian Script on a Computer

Writing the vertical Mongolian script (*Mongyol bičig*) on a computer can be quite challenging. Over the last years, new programmes and fonts have been developed, but only relatively few people are capable of using them properly. This workshop provides a unique opportunity to get an introduction. After the workshop, the participants have the chance to apply their new knowledge in practical exercises.

**Alle Studierenden der Mongolistik und verwandter Fächer sowie
Interessierte sind herzlich willkommen!**

Ort: Brühler Straße 7, Raum 4.013
